

My top three places

My top three places are very important for me.

My favourite place of all is the house of my grandma and my grandpa. When I am at my grandparents' house my absolute favourite room in the house is my dad and my uncle's old room. There are many cool things, for example old clothes and an antique sewing machine, I love to sew with my grandma. I love being there before Christmas because that's where my grandma stores the Christmas cookies.

My second favourite place is my room. I love to do my homework on my desk because my mom has made me the prettiest desk, I really wanted to have it. I like to play e-guitar there because my dad has made me a very cool e-guitar corner. There are two clips on the wall and that's where I mounted my electric guitars.

My third and last favourite place is the camper that my dad has built himself. I really enjoy sleeping there with my friends Julie and Hannah, that is a lot of fun. One night Julie woke me up and showed me that it had rained into the bathroom, that was funny. The next day we told my dad what had happened, and he was glad that it happened now and not on the campsite.
