

My top three places

I will tell you about my top three places. My first favourite place is in Italy. I love the sun there and to go swimming in the pool. The sea is cold, but it is refreshing. I also love the food there; it is so delicious. I always go in a restaurant and order spaghetti with tomato sauce. At night you can often go to attractions.

My second favourite place is in my room. The coolest thing in my room is my TV. I really enjoy watching a series or a film on Netflix. My wardrobe is really organized because I have a lot of clothes. I often do my homework on my desk. I also have a big bed because I love to sleep. On the weekend I sleep until eleven o'clock.

My third favourite place is by my four rabbits. I love to feed my rabbits and stroke them. Often, they will cuddle and much attention. The special thing in the stable is that my rabbits have a small house in it. They love to hide. The youngest rabbit is always upset when he has nothing more to eat and he makes funny noises.

There were my favourite places. Bye!
